WALKER TRANSFER CO. OFFICE IS DESTROYED

DESPITE STRONG BREEZE, BLAZE IS CONFINED TO BUILDING BY DEPARTMENT.

The fog born at the Mizpah shaft sounded an alarm at 12:15 this afternoon. The fire originating from an overheated stove, was in the office of the Walker Transfer and Express company, at 312 Valley View avenue. The building was gutted but the department, in spite of the wind, held it to the one structure, two streams being played. The building was owned by Mrs. Bertram She had no insurance.

MILLIONS IDLE

(Continued From Page One.)

flood of telegrams poured into the offices of the fuel administration asking interpretations and rulings and requesting information concerning exemption industries that finally the exemption list was given to the press for publication. The day brought a statement of unequivocal support for the order from President Wilson and a vigorous defense by Fuel Administrator Garfield of the step and the government's purpose in taking it.

Opposition to the order in congress apparently spent itself in debate in both houses. During the day Dr. Garfield replied to the senate's request of yesterday that the order be suspended for five days, disclaiming any purpose to be discourteous, declining to comply and again pointing out the necessity for enforcement of his order.

Food Administrator Hoover, in a statement, interpreted the order to mean that no check would be put on the operation of any sort of food handling, manufacturing or distributing.

The plants exempted from a list prepared by Secretaries Baker and Daniels are those manufacturing gas masks, explosives for the government, rifles, pistols, machine guns and small arms ammunition; forgings for the government, electrical supplies and tool steel for war purposes, destroyers and destroyer parts, seamless tubing and condenser tubes, aircraft and aircraft parts, signal corps equipment, locomotives, equipment for ships, woolen goods for the army and navy, white duck and tenting for the government and optical supplies.

All shipyards, although not included in the exempted list, will continue operation under a special ruling, as will hundreds of plants turning out materials which enter directly into the manufacture of army and navy supplies.

Most of the big steel plants and a large number of the country's automobile factories are included in the list.

Among the collateral industries which will be classed as not coming within provisions of the order will be virtually all mines producing ores.

In his statement supporting Dr. Garfield's issuance of the closing order President Wilson says he was consulted and fully agreed with the fuel administrator as to its necessity. If the action had not been taken, he declares, immediate relief could not have been found for the fuel and transportation shortage.

"This war," he said, "calls for many sacrifices and sacrifices of the sort called for by this order are infinitely less than sacrifices of life which otherwise might be involved." Dr. Garfield's statement emphasized the railroad congestion, which he declares is threatening the food supply, points to the necessity for moving ships to Europe and carries an appeal to capital to bear its share of the burden brought by the closing order by paying employees for the time they are idle.

OUT OF THE HOSPITAL.

Chief of Police Grant, who was operated on several weeks ago for appendicitis, is so far improved that he was able to be removed to his home yesterday.

PRICE COAL IN TONOPAH LESS THAN ALLOWANCE BY ADMINISTRATOR

CARSON CITY, Jan. 19.—A sweeping order fixing the prices of coal and covering the entire state was issued yesterday by E. H. Walker, state fuel administrator. The order is effective on January 20 and with the exception of Carson City the reductions range from 20 cents to \$1.70 per ton lower than those now prevailing. The penalty for violation of the fuel administrator's order is a fine of not to exceed \$5000 or imprisonment not to exceed two years.

The Reno price on Utah coal in lots of one ton or more is fixed at \$11.35 per ton curb delivery; delivered at the curb in sacks, \$11.90 per ton; bulk sales at dealers' yards, f. o. b. wagon, \$10.65 per ton; bulk sales at the car, f. o. b. wagon, \$11.35 per ton.

The Reno prices apply to East Ely, Ely, Fernley, Gerlach, Hazen, Inlay, Junco, Lovelock, Orleans, Sparks and Sulphur.

The maximum gross margin to be allowed retail dealers above the prime cost, which includes the price at the mine, freight charges and war tax, is \$2.25 per ton for Battle Mountain, Beowawe, Caliente, Carlin, Carson City, Dayton, Deeth, Elko, Fallon, Fernley, Gerlach, Golconda, Hallack, Hazen, Hudson, Inlay, Jean, Junco, Las Vegas, Lovelock, Mason, Palisade, Pioche, Reno, Sparks, Sulphur, Tecoma, Tohar, Verdi, Wabuska, Wells and Winnemucca.

A margin of \$2.80 per ton applies to Austin, Belleville, East Ely, Ely, Eureka, Gardnerville, Hawthorne, Kimberly, Ludwig, Luning, McGill, Mina, Ruth, Searchlight and Virginia City.

A margin of \$3.30 a ton applies to Beatty, Carrara, Goldfield, Millers, Rochester, Tonopah and Yerington. An additional 65 cents per ton is allowed to be charged on Wyoming coal.

The exceptions to the prices fixed are: An additional charge not exceeding \$1.70 per ton for bin delivery to consumers; an additional charge of not over 35 cents per ton for bin delivery of lots less than one ton and more than 500 pounds; an additional charge of not in excess of 50 cents a ton for bin delivery in lots of less than 500 pounds; for coal sacked on order of consumer an additional charge of not more than 75 cents per ton; for coal hauled by consumer with his own equipment from the dealers' yards a discount of not less than 50 cents per ton; for coal hauled by consumers from the cars direct, a discount of not less than \$1 per ton.

The order expressly provides that by bin delivery is meant the packing of coal from the delivery conveyance to the bin; unloading from the delivery conveyance directly to the bin is not bin delivery.

Dealers are prohibited from substituting a lower priced coal for a higher. The preparation of special mixtures to be sold are those prepared at the mines. In selling two or more kinds of coal to one consumer the dealer must weigh and bill each kind separately.

The fuel administrator directs all persons who have complaints to make about the order to place them with the chairman of the local board.

A Tonopah coal dealer, when shown the foregoing statement from Carson City, relative to the regulation of coal prices, gave the Bonanza figures to show that in this camp coal is being sold for \$3.245 less than allowed by the fuel commissioner.

The price of Wyoming coal at the mine is \$3.95. To this is added a war tax of 3 per cent, or \$.2745. Freight amount to \$.915 a ton. The government extra allowance for Utah coal is \$2.30 and an additional 65 cents for Wyoming coal, making the price allowed for Tonopah \$17.3245, while the local dealers deliver it for \$17.

DEFENDANT PUTS IN CLOSING TOUCHES

The trial of the White Cape-Morning Glory case in the district court today embraced the finishing touches of the defendant on its case in chief.

Chas. Humphrey was called as a witness to testify in regard to having panned some rock or material taken from near the westerly end line of the Pine Nut No. 2 claims, but, on objection made by plaintiff's attorney that the testimony was too uncertain as to whether the samples panned were from within the Pine Nut claim or outside and as to whether the samples were taken from rock in place or from float or the like, the court struck out the evidence of Mr. Humphrey.

Considerable of the forenoon session was spent by counsel in arguing legal questions.

A new point was brought into the case by plaintiff's attorney, who contended that the extra lateral rights of the discovery vein determine the extra lateral rights of all side or secondary veins and that this means that, if the discovery vein only extends through a small portion of the claim, no extra lateral rights on a secondary vein can be held as to so much of the secondary vein as lies outside of the bounding planes of the primary vein.

The statement in the morning paper that, under a ruling of Judge Averill, the defendant company was paying the costs of the case per day is not correct. No such ruling has been made and the entire costs are taken care of as in the ordinary case.

A NEW PARTNERSHIP.

R. A. Belcher and wife, who have resided in Round Mountain for the past two years and who went to Reno for a short visit, returned yesterday. Mr. Belcher has purchased a half interest in the Brokers' barber shop and, with George Rumsey, will continue to conduct this popular tonsorial parlor.

JOINS THE COLORS.

W. P. McCarthy of this city has received word from his brother, E. Owen McCarthy, of Los Angeles, that he has joined the colors, having passed a 100 per cent examination. He will be connected with either the 115th or 153rd engineers.

AT THE BUTLER.

Sweeping the country like a prairie fire, "Draft 258," successor to "The Slacker," is a flaming torch of patriotism. This seven-act patriotic feature has been given a superb production suitable to its great central idea and its thrilling, absorbing story.

It dramatizes the present situation in America when foreign propaganda battle for victory with native patriotism and shows the actual honest difference of opinion that sometimes separates families. The arguments that drive home the truth. "Draft 258" will prove of value to every person who sees this picture. Historical incidents are shown bearing on the struggle for liberty since early times, but the chief merit of the picture is the human interest in the story and the amount of sympathy that centers around the Alden family, which consists of the heroine, whose name is Mary (Mabel) Taliaferro.

The production is a thoroughly good one. It is never overburdened with the atmosphere of war, the marching of soldiers and scenes from camp life. It is the story of one woman's fight for the honor of her country and her home that makes "Draft 258" worth while. Mabel Taliaferro realizes all the possibilities in the part of Mary Alden and deserves great praise. She is an ideal American girl and seems as being born for this particular part in the patriotic production. "Draft 258" has the endorsement of newspapers and government officials. The time taken to make this production was months and months, each and every detail having the closest attention of the director, which has made it a real patriotic production. With this will be seen the best two-reel comedy ever in Tonopah, "Roaring Lions and Wedding Bells"—a laugh to each foot.

Wolpert, Woolridge, Wilkins and Mrs. Hood, Chorus, "Awake," full choir. You cannot afford to miss this splendid service.

St. Mark's.—Holy communion at 8 a. m. Sunday school at 10 a. m. Morning prayer and Litany at 11 o'clock.
